

REGISTRATION OF BREEDING FEMALES – PINK CARD

Commencing 1st February 2016, all female breeding greyhounds in Victoria are required to be Registered for Breeding prior to being served under GAR 127(6).

GAR 127 (6): A bitch shall not be used for breeding purposes unless registered as a 'breeding female'.

BREEDER INFORMATION

To be eligible for registration as a Breeding Female, your greyhound must:

- Be Named;
- Be Micro-chipped;
- Have DNA Results;
- Have a C5 Vaccination administered within the last 12 months and a copy of the vaccination certificate submitted to GRV (clearly identifying greyhound and showing date administered);
- Be less than 8 years of age;
- Have not had more than 3 litters;
- Have not had 2 or more litters within the past 18 months; and
- Have its Breeder registered with GRV.

If any of the above criteria expires the status of the Breeding female will become inactive. The status will return to active once relevant criteria is met i.e. Updated vaccination record supplied or exemption obtained.

DNA RESULTS

If you intend to have your female served on or after 1st February 2016, GRV recommends applying for your DNA kit as early as possible to allow sufficient time for your DNA results to be returned to Greyhounds Australasia (GA) and recorded by before your greyhound is in season. For more information contact GA on 03 9548 3500.

REGISTER FOR BREEDING VIA FASTTRACK FROM 1 FEBRUARY 2016:

Go to: <https://fasttrack.grv.org.au/>

Login -> My Dogs -> Actions (for the greyhound) -> Register for Breeding

Alternatively, contact the GRV Member Services team on 03 8329 1100.

Once your female is registered for Breeding she will be issued with a Pink Identification Card.

FEES

The fee to register a female for breeding is \$150.00. This fee is paid only for females who have not already whelped a litter.

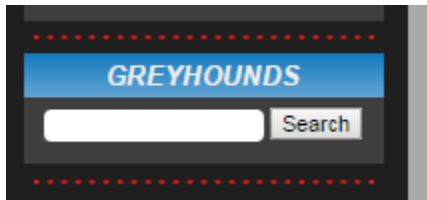

There is no fee for registering a breeding female who has whelped a litter prior to 1st February 2016 but they are still required to meet all the above criteria and to be registered for Breeding.

EXEMPTIONS

Detail regarding applications for exemption from the age restriction and the three litter maximum restriction are available from GRV. Contact the GRV Member Services team on 03 8329 1100 for details.

STUD MASTERS AND FSI TECHNICIANS INFORMATION

As a Stud master or FSI approved technician it is crucial that you determine a female is actively registered for breeding prior to conducting a service of any kind. It is your responsibility to ensure the female has an ACTIVE breeding registration by searching her name on FastTrack.

This FastTrack breeding status and icon allows you to proceed with your planned service.

Breeding Female - Active 

These FastTrack breeding status and icons prohibit you from proceeding with your planned service.

Not Registered for Breeding

Breeding Female - Inactive 

GRV's Member Services team can help you in confirming registration details – info@grv.org.au or telephone 03 8329 1100.
