GRV Media Release – Lara raid investigations continue

Greyhound Racing Victoria's integrity officers are continuing to investigate activities uncovered from last week's raid on a greyhound property near Lara.

GRV's General Manager, Shane Gillard said that he was very thankful to everyone who had come forward with extra information since Thursday.

"We know that the mums and dads who make up the bulk of the industry want those who are not doing the right thing caught and removed," Mr Gillard said.

"The actions we are taking are significant and are part of the day to day business of the regulator regulating. There is no room in the greyhound industry for anyone who thinks they can do the wrong thing and get away with it.

"We have followed up many leads over the past months and we will continue to do so. We welcome any information from any source to assist us in ensuring the absolute welfare of our animals and the integrity of the sport."

If anyone has any information for the integrity area of GRV please contact the Hotline on [1300 856 109](tel:1300856109).
