Greyhound Monthly Victoria (GMV) magazine is produced by Greyhound Racing Victoria (GRV), the governing body of greyhound racing in this state.

GRV strongly encourages all Victorian greyhound racing participants - in particular breeders and trainers - to take the time to read each issue of GMV to ensure they are across relevant key issues.

Each edition of GMV aims to provide an overview of key happenings in relation to Victorian greyhound racing that occurred during the previous month, as well as promoting significant and relevant upcoming activities and events.

It is GRV's goal to have each edition of Greyhound Monthly Victoria available on-line at grv.org.au on or before the last day of the previous month, and arriving in letter boxes by the 10th day of each month.

CEO's Update

It has been another very busy month for greyhound racing in Victoria with exciting new developments and significant progress on a few fronts.

Firstly, as you may be aware, the North American market, one of the largest in the world, has now been opened up to allow direct wagering on Victoria greyhounds. Tabcorp and Sky Racing have brokered new commingling arrangements so that American audiences can now bet directly into Tabcorp's Australian pools. Greyhound Racing Victoria (GRV) and our Victorian Racing Industry partners, Racing Victoria and Harness Racing Victoria have been working with Tabcorp and Sky Racing, first to broadcast Victorian racing into North America and then to help secure this new deal.

It will put Victorian greyhound racing on show on an international stage and generate increased wagering revenue for reinvestment in the sport and for further boosting prizemoney and other returns. Victoria already hosts more greyhound races than any other jurisdiction worldwide and this deal will give us the opportunity to dramatically expand our customer base as well.

I wish to particularly acknowledge the leadership shown by our Chair Peita Duncan in securing these new arrangements.

In other news, GRV and Victoria's 13 greyhound clubs have now finalised this year's Club Registration and Funding Agreements and related Operating Standards. As both the central pillar of our code in the state and as significant community hubs, Victoria's greyhound racing clubs have many responsibilities such as racing integrity and safety, Occupational Health and Safety and statutory governance requirements for non-profit organisations. These agreements will help clubs in best meeting these responsibilities and I thank all the club managers and administrators and Greyhound Clubs Victoria for working so productively with GRV on this key issue.

Another issue that GRV is working on with clubs to improve safe racing is harrowing. GRV, in conjunction with Greyhound Clubs Victoria, is undertaking a review into harrowing policies and practises across all Victorian clubs to maximise safe racing through consistent racing and trialling surfaces. The review is seeking input from Clubs including club track staff, GOTBA representatives, participants and other key stakeholders. The review will be independently chaired and is expected to be completed by September 2021.

I'd also like to remind you that GRV's new Desexing and Dental Scheme is now operational. GRV will directly pay up to \$400 (including GST) for an eligible male greyhound and up to \$500 (including GST) for an eligible female. It is open to all Victorian-owned greyhounds and interstate-owned greyhounds that have trained and raced in Victoria for at least three months prior to retirement. Participants can nominate their own Victorian-based veterinary clinics. You can find more details and application forms at greyhound-care.grv.org.au/rehoming/desexing-and-dental-scheme.

The Traralgon track redevelopment remains on schedule, and you can inspect the progress in person at the upcoming Participant Day which will be conducted in late August/ early September. It will be a great opportunity to see how one of the world's most advanced greyhound racing track is shaping up and to talk with the people behind the project. You can visit the Traralgon Greyhound Racing Club website to find out more and to check for when the Participant Day date is confirmed.

Finally, I'd like to again thank all of you, participants, club and race day staff and volunteers, for your patience and cooperation in getting the sport through another lockdown while keeping our very full racing calendar on track. Please continue to stay safe and I look forward to seeing all of you back at the races as spring gets closer.

Hank The Hustler after the Fireball win

From a punter's club to greyhound success

BY TONY HOMFRAY

New GRV Board member, Daniel Nugent's first introduction to the greyhound industry was through the winnings from a punter's club. Having experienced a very rare win, he and a few mates decided to do something substantial . . . like buying a greyhound.

Then came the hard part. Daniel admits that none of them knew anything about the industry and the journey was just beginning . . . from buying a pup, locating a rearer, finding a trainer, and ultimately racing the dog.

"It was definitely a learning experience, with our future retirement fund even living with a friend for a few weeks in a Fitzroy flat eating Pal – hardly the best preparation for a racing dog," Daniel said.

After plenty of twists and turns, Mr. Nigel finally made it to the racetrack. He won on debut with about 15 members from the syndicate cheering him home up the Warragul straight, and would go on to win 12 races, including a couple in the city. Daniel and his mates were hooked.

Daniel was working at KPMG at the time, and plenty of colleagues started asking questions about getting and racing a greyhound and out of it all he saw the opportunity to set up a syndication business.

So, in 2010, he and three mates started a syndication service, The Golden Paw, which ultimately became so successful that it was interfering with their day jobs, so it was wound up a few years ago.

But for Daniel it was an eye opener into the potential for greyhound syndication, and it was through his personal involvement that he became a member of the GRV industry consultative group subcommittee.

Daniel combines that experience with extensive transactional and corporate development experience at both KPMG and EnergyAustralia, where he currently heads the Portfolio Development team, which is responsible for delivering the energy transition at one of Australia's largest energy companies. Daniel sees his Board position as an opportunity to work with GRV on key commercial priorities and unlock the potential for greyhound racing syndication in Victoria.

"Syndication in greyhound industry has such incredible potential, with low entry costs for new participants . . . but to be successful, it is important to open up access to the best breeders, breakers, trainers and owners to provide an end-to-end delivery model for syndicates," he said.

Daniel expects that his Board focus will be on the commercial and marketing areas to assist in growing the sport in a sustainable manner, for the benefit of all participants.

Recent reports of diseases in dogs in Victoria

GRV advises participants of recent reports of different diseases amongst pet dogs in Victoria, and to notify GRV of any suspect cases via vets@grv.org.au or **(03) 8329 1100**.

Acute hepatopathy (liver disease) cases in dogs:

A cluster of cases of acute hepatopathy in Victorian dogs (particularly in Gippsland) that were fed pet meat were recently identified. While GRV is unaware of any racing greyhounds being affected, several pet greyhounds have been in the 21 dogs that have died so far. While it still being investigated, the meat has been shown to be contaminated with a plant toxin called Indospicine.

Dogs that have eaten pet meat and have acute onset of vomiting, inappetence, excessive thirst, or jaundice should be referred to a veterinarian as soon as possible and GRV notified. It is critical that any dog with an acute hepatopathy receives intensive supportive care.

Acute gastroenteritis (gastro) cases in dogs:

A cluster of cases of highly contagious gastroenteritis was reported in media over in July centred around a dog park in Melbourne. Acute onset of vomiting, diarrhoea, dehydration, inappetence and lethargy were observed.

Greyhound Racing New Zealand also recently confirmed infectious gastroenteritis (canine enteric coronavirus or CECov) cases on two greyhound properties in late June.

These cases have similarities to the large gastro outbreak experienced by the industry in early 2020.

As such, participants should ensure appropriate biosecurity precautions, and should signs develop, seek advice from their veterinarian as soon as possible and notify GRV.

Further information is provided in this Infectious Gastroenteritis Fact Sheet <https://tinyurl.com/448b3nrc>

Community meals reaches 10,000 milestone

Sandown Greyhounds' partnership with local charities Reaching Out Because We Can and Servants Of The Two Hearts reached a significant milestone this month with the 10,000th meal donated to the local community.

The relationship between the charity groups and Sandown Greyhounds began during the second lockdown of 2020. Rather than disposing of stored food, the club reached out to the City of Greater Dandenong and was directed to the two charities who help distribute meals and other items to members of the community in need.

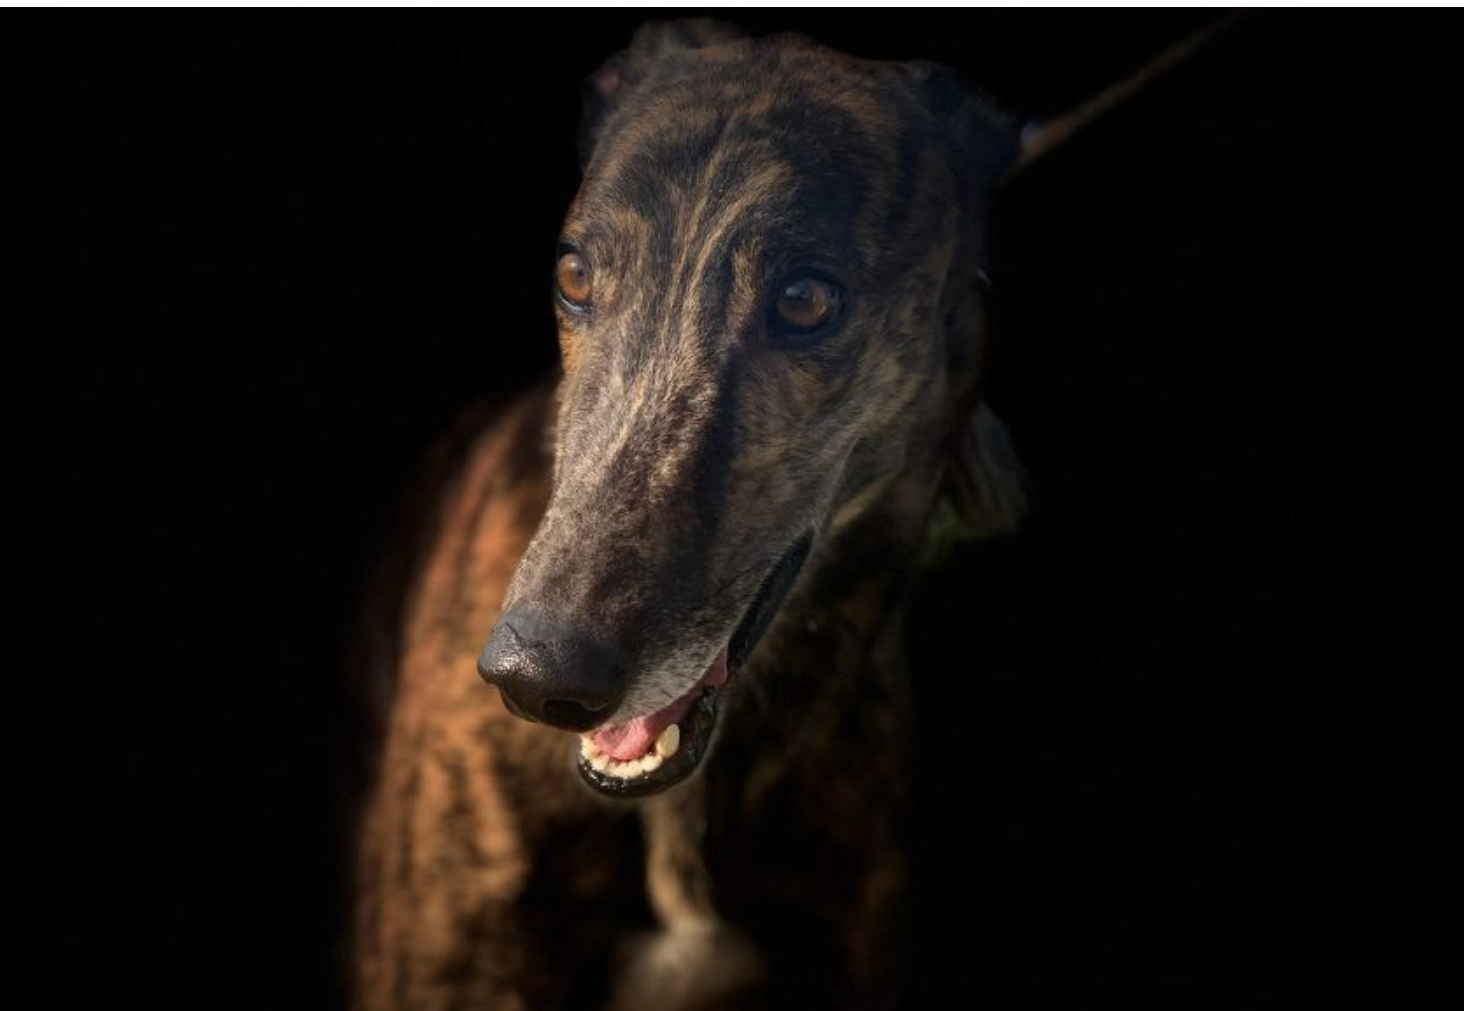

"We are so privileged to be partners with Sandown Greyhounds. Thousands of meals are cooked by them that we personally deliver to our friends out there - we call them our friends because to us, they are," said Elisa Mineo of Reaching Out Before We Can.

"Working together with Sandown Greyhounds has given many people that meal they would never have had."

The charities' outreach program covers Springvale, Noble Park and Dandenong, providing community lunches, dinners, delivery of food parcels, toiletries, clothing, blankets, doonas, sleeping bags, filling homes with furniture, white goods and much more.

"We help people from all walks of life. No discrimination regardless of culture, nationality, age or gender. We don't look at a person for the situation they are in at the present, we see a human being that needs us and we are there with open arms," said Sister Margaret Mary of Servants Of The Two Hearts.

The groups are planning a fundraising event in the coming months to raise money for their program. Sandown Greyhounds has donated the venue for the event and is keen to speak to anyone who is willing to contribute to the fundraiser.

Back-to-back McKenna Memorial champion Christo Bale has been retired.

BY JASON ADAMS

The popular 11-time group race finalist injured a back muscle at Warrnambool last night and given his age it brings down the curtain on what has been a tremendous career.

“He’s well over 3-years-old so it’d be difficult for him to come back at a level that we’re used to seeing him at,” said co-trainer Lisa Delbridge.

He will now transition to the Delbridge family backyard and join some other well-known and beloved members of the team.

“He’ll still hang around with the race dogs for a month or so to wind down and then he’ll go into our backyard. He’ll join Penta Allen and Spring Hummer, as long as he behaves himself, which he should,” laughed Delbridge.

She described Christo as one of a kind who conducts himself with class on and off the track.

“He’s quirky and he’s a gentleman. It’s the looks on his face, he’s just different to other dogs – it’s hard to describe.

“At home he’s not an out-there dog, he’s a bit of an introvert. If he went to live with someone else, I’d be worried about him, not that anyone would treat him any differently, but he might fret because he’s been with us for so long.”

Christo Bale has been one of the sport’s most admired sprinters throughout his career. While other greyhounds may have had higher profiles Christo Bale earned his share of fans with his brilliance, versatility and consistency. He won 29, placed in a further 22 and earned a tick under \$300,000 in prize money. He competed in 11 group races and is the only greyhound to have won back-to-back McKenna Memorials.

“It’s been an exciting ride, but back-to-back McKennas is the highlight. He made so many group finals and always met a Simon Told Helen, Tiggerlong Tonk or Shima Shine but he’d give 110% every time he went around.

“One of the biggest thrills was when he ran down Catch The Thief in Speed Star at The Meadows in sensational time. That was good.”

GREYHOUND WELFARE AND RE-HOMING REPORT

BY DR GAVIN GOBLE BVSC, GENERAL MANAGER, GREYHOUND WELFARE AND RE-HOMING

VACCINATIONS FOR GREYHOUNDS

The Code of Practice requires all greyhounds to have a current C5 vaccination. Please speak to your veterinarian about when your greyhounds are next due for a vaccination and ensure your Kennel Cough vaccine is up to date. Just a reminder that the vaccination requirements for acceptance into GAP are more specific, so please check with GRV if you are planning to get a vaccination for this purpose. These requirements are also on the GAP page of this magazine.

In addition to recording your greyhound's vaccinations in its Greyhound Record, please also provide GRV with copies of your vaccination certificates for GRV to upload into FastTrack so there is a permanent record. This is particularly important if you are considering, or are already, breeding from your greyhound. These vaccination certificates are required to keep the Pink Card active.

GRV's NEW Desexing and Dental Scheme

GRV's Desexing and Dental Scheme, where GRV will financially contribute to the veterinary costs, launched on 1 July 2021 has already received and approved nearly 100 applications. The purpose of the scheme is to financially support participants to desex their greyhounds either after retirement as a pet to a registered participant (i.e. retained as a pet) or prior to rehoming (to a third party or a community rehoming group). It is important for the health of the greyhound that dental issues are dealt with while the greyhounds are already under anaesthetic for desexing. Eligibility criteria and all the relevant information are available at <https://greyhoundcare.grv.org.au/rehoming/desexing-and-dental-scheme>.

In summary owners apply to GRV using the application form (or by phoning GRV if access is an issue) and GRV will issue a voucher to the veterinary clinic so they can invoice GRV directly. GRV will pay up to \$500 (incl GST) for a female or cryptorchid male, and \$400 for a male, with any costs over and above this payable by the owner. Both the desexing and dental treatment must be done.

FastTrack changes

GRV has recently made changes to FastTrack such that a greyhound's high-level status on the Dog Details page shows the status as "Retired (Deceased)" where the greyhound died or was euthanased on or after 1 July 2021 (instead of just "Retired"). The changes are visible on the public-facing (non-login) website as well as the participant login portal and have not been applied for deaths and euthanasia prior to 1 July 2021. The changes do not affect any other functions in FastTrack.

Recent reports of diseases in dogs in Victoria

GRV wishes to make participants aware of recent reports of different diseases amongst pet dogs in Victoria that have the potential to affect racing greyhounds. We ask participants to

notify GRV of any suspect cases by emailing vets@grv.org.au or by phoning (03) 8329 1100.

ACUTE HEPATOPATHY (LIVER DISEASE)

There has been a large cluster of cases (many fatal) of liver disease in Victorian dogs (including pet greyhounds), especially in Gippsland. While still under investigation, the cause has been found to be a toxin called indospicine which is found in many Indigofera plants, a lupin-type native plant. There appears to be a link to feeding contaminated raw pet meat. GRV has information available at <https://www.grv.org.au/news/2021/07/22/primesafe-and-agriculture-victoria-statement-dog-liver-disease-cluster/> but the investigation is being conducted by PrimeSafe and Agriculture Victoria. If any greyhounds begin to show signs of poor appetite, vomiting, excessive thirst, or jaundice (yellowing of eyes and gums) participants need to seek veterinary treatment urgently and notify GRV as soon as possible.

ACUTE GASTROENTERITIS ('GASTRO')

A cluster of cases of highly contagious gastro was reported in media recently centred around a dog park in Melbourne. Vomiting, diarrhoea, dehydration, poor appetite and lethargy were observed. Greyhound Racing New Zealand also confirmed infectious gastroenteritis (canine coronavirus) cases on two greyhound properties in late June. These cases are similar to the large gastro outbreak experienced by the industry in early 2020, and participants should ensure they undertake cleaning and disinfection routines to prevent a broadscale outbreak. Further information is available here:

NEOSPOORA

Neospora is a parasite which is widespread in Victoria. Greyhounds usually get Neospora by eating raw meat or offal from livestock infected with the parasite. While most adult healthy dogs with the parasite are symptom free (asymptomatic), severe infections do happen in

young puppies and can be fatal, affecting an entire litter. Symptoms in puppies include hindlimb weakness, that can progress to complete paralysis, muscle wastage and rigid hyperextension of the hindlimbs (forelimb symptoms are less common). Nerve and muscle damage can develop later and affect a greyhound's racing career. Adult dogs typically show neurologic signs, including seizures, head tilt, staggering gait, and partial or complete paralysis. Inflammation of muscles, pancreas, skin, liver and lungs can also occur. There is no vaccination for Neospora, however preventative measures include:

- Always ensure water and food bowls are clean and not located near toileting areas.
- Ensure kennels and yards are clean; faeces should always be removed as soon as possible.
- Avoid feeding raw meats and cook meat thoroughly, as heat destroys Neospora.
- Freezing meat is recommended, as freezing should destroy Neospora.
- Avoid feeding placental tissue or aborted materials from livestock, or other raw offal.

If you suspected that your greyhound is infected with Neospora, promptly contact your veterinarian. They can provide you with information about diagnosis, treatment, prevention and management options for the affected greyhound(s) and any other dogs on your property. For more information visit the Care and Standards website.

GRV has some resources on feeding premium kibble diets to support participants wishing to move away from raw meat diets <https://greyhoundcare.grv.org.au/health-and-well-being/feeding-medication-supplement-guidelines/#kibble>.

Dental Health and Your Greyhound

It is oral health month for dogs! Routine dental care throughout a greyhound's life is a vital part of ensuring their health and welfare. Poor dental and oral health are the number one medical issue in greyhounds and affects the bones, gum tissue and surrounding structures that hold the teeth in place. Poor dental and oral health causes pain, but if severe enough, can affect a greyhound's racing performance. It can also lead to significant costs for you in addressing significant dental issues on retirement where a simple clean and scale undertaken by a veterinarian is no longer sufficient.

SIGNS OF GOOD ORAL HEALTH

- Lips and jowls should be equal with no signs of thickening or swelling. The skin should be clean.
- Gums and the mouth lining should be pink with no signs of redness or swelling. Some dogs will show areas of darker spots which can be normal. The surface of the gums and mouth lining should be moist and glistening.
- Teeth should be white with minimal or no tartar accumulation and the gum-tooth margins should not be reddened, thickened or inflamed.
- No bad breath.

SIGNS OF BAD ORAL HEALTH

Early signs:

- Tooth discolouration
- Appearance of mild dental tartar or plaque on teeth
- Bad breath
- Mildly red or swollen gums

More developed signs:

- Tooth wear or crown fractures
- Tartar or plaque build up
- Rotten teeth
- Gum redness or receding gums
- Sores in mouth
- Blood in mouth
- Drooling excessively

PREVENTION IS BETTER THAN CURE

There are many things you can do to avoid significant dental issues later in life.

It is recommended that as part of your annual health check and vaccination (mandatory under the Code of Practice for the Keeping of Racing Greyhounds) you ask your veterinarian to check your greyhound's teeth and undertake any necessary dental treatment/implement any oral health management recommended.

It is also recommended that you provide:

- greyhounds with raw bones to help them clean their teeth naturally
- dental chews
- dry dental kibble (not moistened)
- chew toys
- oral rinses, gels and toothbrushing

To assist participants with re-homing their greyhounds, spaces in the pre-entry assessment sessions are booked through Racing Services during office hours on **03 8329 1100** or by emailing **gapbooking@grv.org.au**.

All sessions for the next 2 months are listed on this page, with later dates released each month.

To be eligible for a pre-entry assessment your greyhound must:

- have a current C5 vaccination as per the specific GAP VACCINATION REQUIREMENTS described on this page given at least 10 days before the pre-entry assessment; and
- not have been trained, trialled or raced for at least one month (preferably two months) prior to the testing day ("wind-down period"). This will increase the likelihood of your greyhound passing the temperament test. The 'Racing to Retirement' information booklet is available through Racing Services or at: greyhoundcare.grv.org.au/retirement-from-racing.

Participants may be asked to provide a good quality, well fitted wire muzzle when entering a greyhound into GAP. Note: there is no fee for greyhounds being entered into GAP.

The principles of the GRV Hot Weather Policy also apply to days when greyhounds are accepted into GAP. For days when the temperature is forecast to be 32 degrees or above, entry sessions may be subject to a time change. For days when the temperature is forecast to be 38 degrees or above, entry sessions will be cancelled. GRV will notify participants by phone as soon as possible for all session changes and cancellations. Wherever possible, GRV will endeavour to replace cancelled sessions with new sessions in the local area.

GAP VACCINATION REQUIREMENTS

Your greyhound must have had the following vaccinations:

- Parvovirus, Distemper and Hepatitis (C3) within the last 2½ years (or within the last 1 year if the last C3 was given earlier than 12 months of age); and
- Kennel Cough (both Bordetella and Parainfluenza) within the last 6 months where the Bordetella component is given as an intra-nasal or oral vaccine.

The simplest method to achieve this is an injectable C3 vaccine plus the standard intra-nasal Kennel Cough vaccine.

Note the GAP vaccination requirements are more specific than a standard injectable C5 vaccination given annually. If you or your veterinarian have any questions on these requirements, please contact GRV.
