Greyhound Monthly Victoria (GMV) magazine is produced by Greyhound Racing Victoria (GRV), the governing body of greyhound racing in this state.

GRV strongly encourages all Victorian greyhound racing participants - in particular breeders and trainers - to take the time to read each issue of GMV to ensure they are across relevant key issues.

Each edition of GMV aims to provide an overview of key happenings in relation to Victorian greyhound racing that occurred during the previous month, as well as promoting significant and relevant upcoming activities and events.

It is GRV's goal to have each edition of Greyhound Monthly Victoria available on-line at [grv.org.au](http://grv.org.au) on or before the last day of the previous month, and arriving in letter boxes by the 10th day of each month.

# CEO's Update

What better way to celebrate the opening up of Victoria's greyhound racing tracks than with the 2021 Melbourne Cup? It was wonderful to be back in person, and to join so many of you on course again, for the world's greatest greyhound race last Friday. My congratulations to Rose and David Geall and Koblenz for a spectacular win.

There is more great racing to come as restrictions lift and we enter summer. We're looking forward to the \$1.1 million plus Phoenix, the world's first greyhound slot race, the Ballarat Cup, the Boxing Day Sale Cup and the Silver Chief heats. And that's just for December.

Victorian greyhound racing has also been winning off the track too, with a very impressive showing in the 2019-20 Community Clubs Victoria (CCV) Awards announced on 22 November and which you can read more about in this edition of the Monthly. I congratulate Sandown and The Meadows for winning the Metro Club of the Year for their Greyhounds Entertainment facility and Peter Johnson as runner up in the Manager of the Year Award. And I thank all the clubs for their central roles in The Great Chase and the Red and Blue Dog campaigns which saw GRV winning CCV's Best Social Inclusion Award.

I believe this is the first time any racing code has had this much success at the CCV Awards, and it highlights the renewed recognition of our sport's strong involvement in and support for the Victorian community. My heartfelt thanks to everyone who has contributed to our great run at the CCV Awards.

In other news, GRV has now officially launched MyFastTrack, a free app which gives you a new mobile-first way to use FastTrack wherever you are. All key FastTrack functions are now just a few taps away on your phone or tablet, including the ability to add and edit Kennel Names and Greyhound Record entries for multiple dogs at once. This can only be done through the app. You can find out more about how it will streamline your greyhound business management in this edition and at: [myfasttracksupport.grv.org.au](http://myfasttracksupport.grv.org.au).

Looking ahead, we are now planning for official opening of the new \$6 million Traralgon track in January. We had hoped it would be ready this December, but supply chain issues have delayed the installation of the new drop-on starting boxes. It is very important starting boxes are properly installed and fully trialled before the first full race meeting.

As we open up and the weather gets warmer, I'd like to remind you of a couple of important issues. Firstly, there is the Victorian Government requirement that anyone taking part in public activities away from home must be fully vaccinated, unless holding a valid medical exemption. This applies to all race meetings and trials for all participants and club and race day staff. Secondly, while we all welcome summer, it is also the start of hot weather and fire season so please make sure you are up to date with GRV's hot weather racing and transport policies and that your property is prepared for fire season.

Finally, I again thank everyone for your patience and perseverance through another challenging year. But we have come out of it stronger than ever with Victoria now thriving as the world's biggest centre for the sport of greyhound racing. I wish everyone a happy and safe Christmas with your loved ones, especially those you haven't seen for a while. And I think we can look forward to a very exciting and action-packed new year on the track.

**How the race was won:** Flying machine Koblenz (\$4.30) catapulted from Box 3 and set up a handy break down the back straight. Aston Rupee (\$2.10F) had no luck early before flashing home for fourth. He also won the G2 Cranbourne Cup and was runner-up in the G3 Warragul St Leger and third in the G3 Cranbourne Classic.

# MyFastTrack is now here for you, wherever you are

In the busy on-the-go world of greyhound rearing, racing and rehoming, most participants rely on their mobile phones to complete everyday racing, breeding, and administration tasks.

GRV's MyFastTrack is the new mobile app for FastTrack that will make managing your greyhound racing activities and keeping records up to date a breeze. Intuitive and user friendly, with just a few taps, wherever you are, Victorian breeders, owners and trainers can quickly and easily complete any task, access the racing calendar, check announcements and search for both dogs and trainers.

A long-term major project for GRV, the app was designed and developed in-house, in conjunction with an extensive participant consultation, feedback and testing program spanning more than 18 months, resulting in true mobile friendly access to FastTrack, that is easy to navigate and even easier to use.

In even better news for participants, GRV is pleased to announce that the MyFastTrack mobile app includes two new capabilities that have been on wish lists for some time:

- the ability to add or edit kennel (pet) names, and
- the ability to enter flea or worm treatments for multiple dogs in a single Greyhound Record event.

Everything you currently do in FastTrack can be completed in the MyFastTrack mobile app, but easier and quicker. Update registration and banking details, create and manage syndicates, filter and search payment transactions, or view and download payment statements with a few simple taps.

The app has been designed with better workflows and filter screens and includes tips on how to use different features in the app.

Trainer Mark Giddings is one member of the MyFastTrack Pilot test group who put MyFastTrack through its paces, testing a live version of the app for several months. He summed up the overall benefits of MyFastTrack very simply: "Being on the road all the time racing, it makes it a hell of a lot easier!"

Another member of the group, trainer Darrell Leathan, said, "I like how simplified the process is for managing a greyhound, it just makes the job easier."

On the mobile friendly design, trainer Lewis Greene said, "On the phone, FastTrack used to be really small, so you needed a magnifying glass, but MyFastTrack fits onto the phone, it's brilliant".

Trainer, and ICG member, Terry Davis was particularly happy with the new main menu, saying, "I find it's a lot quicker. I can go straight to where I want to without too much effort, it's very simple with the icons down the bottom which take you straight to the area you want to go to."

The MyFastTrack mobile app is free and available to download from Google Play or Apple's App Store now. Download the app and see for yourself!

Access app help, lodge support enquiries or provide feedback direct from the app or by visiting [myfasttracksupport.grv.org.au](http://myfasttracksupport.grv.org.au).

The dedicated MyFastTrack Support website offers FAQs, instructional videos, screenshots, and support and feedback contact details.

The current FastTrack Client Portal is still in operation, so you can keep using it as well if you choose to do so.

# GREYHOUND WELFARE AND RE-HOMING REPORT

BY DR GAVIN GOBLE BVSC, GENERAL MANAGER, GREYHOUND WELFARE AND RE-HOMING

## VACCINATIONS FOR GREYHOUNDS

The Code of Practice requires all greyhounds to have a current C5 vaccination. Please speak to your veterinarian about when your greyhounds are next due for a vaccination and ensure your Kennel Cough vaccine is up to date. Just a reminder that the vaccination requirements for acceptance into GAP are more specific, so please check with GRV if you are planning to get a vaccination for this purpose. These requirements are also on the GAP page of this magazine.

In addition to recording your greyhound's vaccinations in its Greyhound Record, please also provide GRV with copies of your vaccination certificates for GRV to upload into FastTrack so there is a permanent record. This is particularly important if you are considering, or are already, breeding from your greyhound. These vaccination certificates are required to keep the Pink Card active.

## Desexing and Dental Scheme

The Desexing and Dental Scheme is going extremely well but just a reminder that only participants can apply for it while the greyhound is in their care, as the underlying principle is to ensure greyhounds are desexed prior to rehoming. It is also available for greyhounds retained as pets by participants, even those that were already retired as pets prior to July 2021. For more information visit

<https://greyhoundcare.grv.org.au/rehoming/desexing/> or phone the welfare team.

## Surrendering greyhounds to a shelter

Surrendering a greyhound to a council pound is a breach of the Code of Practice for the Keeping of Racing Greyhounds and that is straightforward for a council-managed facility. However, some shelters also provide contracted pound services to one or more councils. If you are considering surrendering a greyhound to a shelter that also provides pound services, you must check that none of the racing connections (including the trainer) reside in a municipality that the shelter provides pound services for. For more information on retiring your greyhound to a shelter visit:

<https://greyhoundcare.grv.org.au/retirement-from-racing/#shelters>.

## Fireworks, summer storms and greyhounds

Fear of loud noises, such as fireworks and summer storms, is quite common. The worst times of the year tend to be in spring and summer when significant storms are more likely to occur, and around New Year's Eve when there are lots of fireworks.

Fear of storms and fireworks can have significant racing implications for greyhounds with the potential to derail their racing program. Instead of resting, your greyhound will be using essential energy as part of the fear response and tiring

themselves before they race. What can you do?

1. Look at ways to reduce exposure. The most obvious way to achieve this are to:
  - House/board the greyhounds away from areas where fireworks are used.
  - Block out light (e.g. covering windows to block out flashes of lightning).
  - Put on music, or white noise CD in the kennel block to help dull the sound.
2. For serious responses to thunderstorms, you should consider creating a safe space for the greyhound within their kennel where they can feel protected. A large crate could be placed inside their kennel covered in blankets and their bed moved into the crate. The door to the crate must be left open, but the dark small space may provide a sense of security and reduce their fear.

If you cannot limit your greyhound's exposure to the noise to a level that they can cope with and remain calm, then you must seek help from your veterinarian to develop a medication plan. For more information, visit

[https://greyhoundcare.grv.org.au/health-and-well-being/managing-other-problem-behaviours-in-greyhounds/#fear\\_of\\_load\\_noises](https://greyhoundcare.grv.org.au/health-and-well-being/managing-other-problem-behaviours-in-greyhounds/#fear_of_load_noises).

## Fire season is here – be prepared

Summer has started and spring growth has continued late into the year. It is essential you continue to slash, mow and clear through the Christmas season and into January until growth begins to slow.

- ❑ Ensure grass in surrounding paddocks, yards, alongside slipping tracks etc is no taller than 50mm
- ❑ A clearing of about 10 metres of well-mown grass (no taller than 50mm) around buildings is advisable
- ❑ Remove piles of fine fuels such as leaves, twigs and bark from trees; embers landing in these fine fuels will create spot fires
- ❑ Check gutters regularly and remove any leaf or vegetation build up
- ❑ Remove fuels from around windows and doors
- ❑ Make sure trees are healthy with no dead limbs and no vegetation underneath them
- ❑ Remove doormats from around homes and kennel blocks
- ❑ Move combustible furniture and other items from decks, up against, or under buildings
- ❑ Move pot plants a few metres from buildings
- ❑ Double check that gas bottles are anchored securely with the relief valves pointing away from any flammable materials
- ❑ Ensure your insurance is sufficient and current
- ❑ Practice your evacuation plan at least once each month.

To assist participants with re-homing their greyhounds, spaces in the pre-entry assessment sessions are booked through Racing Services during office hours on **03 8329 1100** or by emailing **gapbooking@grv.org.au**.

All sessions for the next 2 months are listed on this page, with later dates released each month.

To be eligible for a pre-entry assessment your greyhound must:

- have a current C5 vaccination as per the specific GAP VACCINATION REQUIREMENTS described on this page given at least 10 days before the pre-entry assessment; and
- not have been trained, trialled or raced for at least one month (preferably two months) prior to the testing day ("wind-down period"). This will increase the likelihood of your greyhound passing the temperament test. The 'Racing to Retirement' information booklet is available through Racing Services or at: [greyhoundcare.grv.org.au/retirement-from-racing](http://greyhoundcare.grv.org.au/retirement-from-racing).

Participants may be asked to provide a good quality, well fitted wire muzzle when entering a greyhound into GAP. Note: there is no fee for greyhounds being entered into GAP.

The principles of the GRV Hot Weather Policy also apply to days when greyhounds are accepted into GAP. For days when the temperature is forecast to be 32 degrees or above, entry sessions may be subject to a time change. For days when the temperature is forecast to be 38 degrees or above, entry sessions will be cancelled. GRV will notify participants by phone as soon as possible for all session changes and cancellations. Wherever possible, GRV will endeavour to replace cancelled sessions with new sessions in the local area.

## GAP VACCINATION REQUIREMENTS

Your greyhound must have had the following vaccinations:

- Parvovirus, Distemper and Hepatitis (C3) within the last 2½ years (or within the last 1 year if the last C3 was given earlier than 12 months of age); and
- Kennel Cough (both Bordetella and Parainfluenza) within the last 6 months where the Bordetella component is given as an intra-nasal or oral vaccine.

The simplest method to achieve this is an injectable C3 vaccine plus the standard intra-nasal Kennel Cough vaccine.

Note the GAP vaccination requirements are more specific than a standard injectable C5 vaccination given annually. If you or your veterinarian have any questions on these requirements, please contact GRV.
